

KARSHINAS KANS

Senior Software Engineer | Next.js | Express.js | TypeScript

Kerala, India | 8113047070 | kans7070@gmail.com

PROFESSIONAL SUMMARY

Frontend-focused Full Stack Engineer with 4+ years of production experience building web applications using Next.js, TypeScript, Node.js, and PostgreSQL. Experienced in owning features end-to-end, from requirement analysis and technical estimation to frontend implementation, API integration, production release, and support.

PROFESSIONAL EXPERIENCE

Senior Software Engineer - AdroitMinds Software Labs

Aug 2022 - Present

- Progressed from Junior Software Engineer to Senior Software Engineer, taking increasing ownership of requirements, technical estimation, implementation, releases, and production support.
- Own development and production delivery of full-stack applications, with a primary focus on Next.js and TypeScript.
- Develop production features across frontend applications, REST APIs, PostgreSQL workflows, authentication, integrations, imports, and event-based functionality.
- Reduced production response times from approximately 15-30 seconds to 2-3 seconds through in-memory caching that eliminated repeated decryption operations.
- Collaborate with clients and stakeholders on requirements, technical feasibility, estimation, implementation, and production delivery.
- Built REST APIs and backend services using Node.js, TypeScript, Fastify, Express.js, and PostgreSQL, alongside React-based client applications.
- Optimized PostgreSQL queries and indexing strategies and delivered production features, enhancements, and fixes.

SELECTED PROJECTS

• Facility Management :- Next.js, TypeScript, Fastify, PostgreSQL

- Property and tenant workflows, imports, events, authentication, integrations, and timezone-aware processing.

• Power Prompt :- Fastify, TypeScript, Next.js, PostgreSQL

- Multilingual prompt management application for a European client operating across France and Luxembourg.

• Falla :- Next.js, TypeScript, Fastify, PostgreSQL

- Event bookings, tenant and offer management, Excel workflows, and push notifications.

• BT-Portal :- React, TypeScript, MUI, Express, PostgreSQL, Redis

- Dashboards, API workflows, notifications, scheduling, encrypted-data filtering; successfully passed the British Telecom security audit.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript, MUI, Tailwind CSS

Backend: Node.js, Fastify, Express.js, REST APIs

Database: PostgreSQL, Redis
